## **Chapter 1: Summary**

#### 1.1 Features

#### 1.1.1 Advantages

•Multi-language environment can be applied in different countries and regions.

•The main unit system adopts ARM high speed chip to keep it running fast, stable and anti-jamming.

•Updating via TF card at any moment.

•Modern design and high-definition true color screen realize the integration of automotive industry and electronic information technologies and make auto diagnosis and key programming easier, practical and economical.

#### 1.1.2 Durability

•Integrity structure design makes it crack resistance, shock resistance and durable.

•Industrial design ensures the tool work stably under tough environment, such as high and low temperatures.

#### **1.2 Introduction of the device**

#### **1.2.1** The main unit and accessories(Picture as below)

Name	Instruction
Testing cable port	Connect to the main test cable
Display Screen	Show information
F1	Keyboard input option key
F2	Keyboard input option key
ENT	Enter
ESC	Exit or give up
Up	Up
Right	To right
Down	Down
Left	To left
TF card slot	To keep diagnostic program or data

#### **1.3 Hardware technical specification**

•	Dimension:	165mm*86mm*28mm
•	CPU :	Cortex M3
•	Power Supply:	DC12V
•	Operation Power:	DC12V
•	Operation Temperature:	-20~60°C
•	Display Screen:	320*240 TFT

## **1.4 Functions Setting**

Power on , and then press **ENTER** on the screen , then go to the function setting, setting information as shown below:

#### **1.4.1 Function Selection**

Select different functions according to different requirements.

VEHICLES	
IMMOBILISER	
>MILEAGE ADJUSTMENT	
[ENT] [ESC]	[2/2]

**Note:** Software numbers and functions are different according to different product configuration. Further detailed information, please contact your distributor.

#### 1.4.2 System Setting

Select System Setting, language and font can be adjusted, as shown below:

#### 1.4.2.1 Language Selection

This device supports English. In the language directory, select required language and press ENTER to confirm it.

#### 1.4.2.2 Font setting

According to requirement, select different font

#### 1.4.2.3 Metric/Inch

According to different requirements, select the Metric/Inch by the up and down keys, and press ENTER to confirm as show below,

#### 1.4.2.4 Data Logging

Any problems during testing, please use the Data Logging function to record the test process and send the data to us. Select ON by the up and down keys and press ENTER to confirm, shown as below,

**Note:** Every time you need to select ON if you want to record the data before testing car.

#### 1.4.3 System Information

System information includes product serial number, hardware version, software version, release date, register password, etc.

#### 1.4.4 Device Self-test

Device self-test includes screen display, keyboard testing. hardware selftesting, etc. If it cannot show enough pictures on the screen, keyboard not work, and hardware self-test not get through, please return this product to the manufacturer.

# Chapter 2: How to update software for

#### 2.1 Update tool software installation

Login our website: http://en.obdstar.com and click "One Key Upgrade".

Download the update tool and diagnostic software, double click, then go to the next step:

#### Step 1 : Click "Next"

## Step 2: Click "Next

License Agreement Please read the following license agreement carefully.	2
